Queensland Gold Hills Corp.

(Formerly Minfocus Exploration Corp.)

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended November 30, 2021

Unaudited – prepared by management

(Expressed in Canadian Dollars)

1. Nature of operations and going concern

Queensland Gold Hills Corp. (formerly Minfocus Exploration Corp.) (“Queensland” or the “Company”) was incorporated under the British Columbia Business Corporations Act on May 6, 2010. The Company completed its Initial Public Offering (“IPO”) on October 19, 2010 and its shares were listed on the TSX Venture Exchange (the “TSX-V”) on October 21, 2010. The Company is principally engaged in the business of exploring and developing base and precious metal mineral properties. Substantially all of the efforts of the Company are devoted to these business activities and to date the Company has not earned significant revenues. The head office of the Company is located at Suite 440 - 755 Burrard Street, Vancouver, British Columbia, V6Z 1X6.

On August 17, 2021, the Company consolidated of its common shares on the basis of five (5) pre-consolidation shares for one (1) post-consolidation share. All share figures in these financial statements are shown as post-consolidated shares. On December 6, 2021, the Company changed its name from Minfocus Exploraiton Corp. to Queensland Gold Hills Corp. The Company’s shares are listed on Tier 1 of the TSX Venture Exchange in Canada (“OZAU”) and the Frankfurt Stock Exchange in Germany (“MB3”).

The business of mining and exploring for minerals involves a high degree of risk and there can be no assurance that current exploration and development programs will result in profitable mining operations. The recoverability of the carrying value of exploration and evaluation properties and the Company's continued existence is dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise additional financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values.

Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to social and government licensing requirements or regulations, unregistered prior agreements, unregistered claims, indigenous claims, and non-compliance with regulatory requirements. The Company’s assets may also be subject to increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and restrictions and political uncertainty.

These condensed interim consolidated financial statements were prepared on a going concern basis of presentation, which assumes that the Company will continue operations for the foreseeable future and be able to realize the carrying value of its assets and discharge its liabilities and commitments in the normal course of business.

As at November 30, 2021, the Company has not earned revenue and has an accumulated deficit of \$7,485,904 (February 28, 2021 - \$7,294,448), had cash of \$1,354,823 (February 28, 2021 - \$41,480) and a working capital of \$878,689 (February 28, 2021 - \$318,704 deficit). The Company’s ability to continue as a going concern is dependent upon its ability to obtain additional financing and/or achieve profitable operations in the future. Management is aware, in making its assessment, of material uncertainties related to events or conditions that cast significant doubt upon the Company's ability to continue as a going concern. These consolidated financial statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. These adjustments could be material.

In early 2020, there was a global outbreak of COVID-19 (coronavirus), which has had a significant impact on businesses through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus.

Queensland Gold Hills Corp.

(Formerly Minfocus Exploration Corp.)

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended November 30, 2021

Unaudited – prepared by management

(Expressed in Canadian Dollars)

2. Summary of significant accounting policies

(a) Statement of compliance

The consolidated interim financial statements of the Company have been prepared in accordance with International Accounting Standard (“IAS”) 34 “Interim Financial Reporting”. This interim financial report does not include all of the information required of a full annual financial report and is intended to provide users with an update in relation to events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the end of the last annual reporting period. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Company for the year ended February 28, 2021. However, this interim financial report provides selected significant disclosures that are required in the annual financial statements under IFRS.

(b) Basis of presentation and consolidation

The consolidated financial statements have been prepared on the historical cost basis, except for cash equivalents which are reflected at fair value as set out in the accounting policies below. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The consolidated financial statements include the financial statements of the Company and its wholly owned Canadian subsidiaries Minfocus International Inc. (“Minfocus International”) and 2244223 Ontario Inc. Subsidiaries consist of entities over which the Company is exposed to, or has rights to, variable returns as well as the ability to affect those returns through the power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company and are de-consolidated from the date control ceases. The financial statements include all the assets, liabilities, revenues, expenses and cash flows of the Company and its subsidiaries after eliminating inter-entity balances and transactions.

3. Critical judgements and estimation uncertainties

The preparation of consolidated financial statements in conformity with IFRS requires the Company’s management to make judgements, estimates and assumptions about future events that affect the amounts reported in the consolidated financial statements and related notes to the financial statements. Although these estimates are based on management’s best knowledge of the amount, event or actions, actual results may differ from those estimates. The areas which require management to make significant judgements, estimates and assumptions in determining carrying values include, but are not limited to:

Going concern

Evaluation of the ability of the Company to realize its strategy for funding its future needs for working capital involves making judgements.

Capitalization of exploration and evaluation expenditures

Management has determined that exploration and evaluation expenditures incurred during the year have future economic benefits and are economically recoverable. In making this judgement, management has assessed various sources of information including but not limited to the geologic and metallurgic information, history of conversion of mineral deposits to proven and probable mineral reserves, scoping and feasibility studies, proximity of operating facilities, operating management expertise and existing permits. See Note 6 for details of capitalized exploration and evaluation expenditures.

Queensland Gold Hills Corp.

(Formerly Minfocus Exploration Corp.)

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended November 30, 2021

Unaudited – prepared by management

(Expressed in Canadian Dollars)

3. Critical judgements and estimation uncertainties (Continued)

Impairment of exploration and evaluation assets

While assessing whether any indications of impairment exist for exploration and evaluation assets, consideration is given to both external and internal sources of information. Information the Company considers include changes in the market, economic and legal environment in which the Company operates that are not within its control and affect the recoverable amount of exploration and evaluation assets. Internal sources of information include the manner in which exploration and evaluation assets are being used or are expected to be used and indications of expected economic performance of the assets. Reductions in metal price forecasts, increases in estimated future costs of production, increases in estimated future capital costs, reductions in the amount of recoverable mineral reserves and mineral resources and/or adverse current economics can result in a write-down of the carrying amounts of the Company's exploration and evaluation assets.

Share-based payments

Management determines costs for share-based payments using market-based valuation techniques. The fair value of the market-based and performance-based non-vested share awards are determined at the date of grant using generally accepted valuation techniques. Assumptions are made and judgement used in applying valuation techniques. These assumptions and judgements include estimating the future volatility of the stock price, expected dividend yield, future employee turnover rates and future employee stock option exercise behaviors and corporate performance. Such judgements and assumptions are inherently uncertain. Changes in these assumptions affect the fair value estimates.

4. Capital management

When managing capital, the Company's objective is to ensure the entity continues as a going concern as well as to achieve optimal returns to shareholders and benefits for other stakeholders. Management adjusts the capital structure as necessary in order to support the acquisition, exploration and development of metallic resource assets. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management team to sustain the future development of the business. The Company considers its capital to be equity, which comprises issued capital, equity reserve and accumulated deficit, which totalled \$1,854,276 at November 30, 2021 (February 28, 2021 - \$545,100).

The Company invests all capital not required for its immediate needs in short-term, liquid and highly rated financial instruments, such as cash and other short-term guaranteed deposits, all held with select major Canadian financial institutions.

The Company is currently attempting to identify economic base and precious metal resources with an emphasis on gold, zinc, and silver, and as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned acquisitions and exploration, as well as pay for administrative costs, the Company will spend existing working capital and raise additional amounts as needed.

Management has chosen to mitigate the risk and uncertainty associated with raising additional capital in current economic conditions by:

- (i) maintaining a liquidity cushion in order to address any potential disruptions or industry downturns;
- (ii) minimizing discretionary disbursements; and
- (iii) exploring alternative sources of liquidity.

In light of the above, the Company will continue to assess new properties if the Company believes there is sufficient potential and if it has adequate financial resources to do so.

Queensland Gold Hills Corp.

(Formerly Minfocus Exploration Corp.)

Notes to Condensed Interim Consolidated Financial Statements

For the nine months ended November 30, 2021

Unaudited – prepared by management

(Expressed in Canadian Dollars)

4. Capital management (Continued)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is appropriate.

The Company's capital management objectives, policies and processes have remained unchanged during the nine months ended November 30, 2021 and the year ended February 28, 2021.

5. Financial instruments and financial risk factors

Fair value measurements

	November 30, 2021	February 28, 2021
Financial assets		
<i>FVPL, measured at fair value</i>		
Cash	\$ 1,354,823	\$ 41,480
Reclamation bonds	5,649	5,649
Financial liabilities		
<i>Other liabilities, measured at amortized cost</i>		
Trade and other payables	\$ 607,055	\$ 353,311
Loan Payable	11,248	10,867

Fair value hierarchy

IFRS 13 establishes a fair value hierarchy that prioritizes the input to valuation techniques used to measure fair value as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at November 30, 2021, the Company's financial instruments are comprised of cash, reclamation bonds, trade and other payables, and loan payable. The carrying value of these financial instruments approximate their fair values due to the relatively short periods to maturity of these financial instruments.

Financial instruments measured at fair value on the statement of financial position are summarized in levels of fair value hierarchy as follows:

Queensland Gold Hills Corp.**(Formerly Minfocus Exploration Corp.)****Notes to Condensed Interim Consolidated Financial Statements****For the nine months ended November 30, 2021****Unaudited – prepared by management****(Expressed in Canadian Dollars)**

5. Financial instruments and financial risk factors (Continued)**At November 30, 2021**

Assets	Level 1		Level 2		Level 3		Total
Cash	\$	1,354,823	\$	-	\$	-	\$ 19,009
Reclamation bonds		5,649		-		-	5,649
Total	\$	1,360,472	\$	-	\$	-	\$ 24,658

At February 28, 2021

Assets	Level 1		Level 2		Level 3		Total
Cash	\$	41,480	\$	-	\$	-	\$ 41,480
Reclamation bonds		5,649		-		-	5,649
Total	\$	47,129	\$	-	\$	-	\$ 47,129

Financial risk factors

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest rate, foreign exchange rate, and metals price risk).

Risk management is carried out by the Company's management team with guidance from the Audit Committee under policies approved by the Board of Directors. The Board of Directors also provides regular guidance for overall risk management. There were no changes in the risks, objectives, policies and procedures from the previous year.

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they come due. The Company's liquidity and operating results may be adversely affected if the Company's access to the capital market is hindered, whether as a result of a downturn in stock market conditions generally or related to matters specific to the Company. The Company generates cash flow primarily from its financing activities. As at November 30, 2021, the Company had a cash balance of \$1,354,823 (February 28, 2021 - \$41,480) to settle current liabilities of \$618,303 (February 28, 2021 - \$353,311). All of the Company's financial liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. The Company regularly evaluates its cash position to ensure preservation and security of capital as well as maintenance of liquidity. The Company has no other contractual obligations other than trade and other payables. As discussed in Note 1, the Company's ability to meet its obligations and carry out its planned exploration activities is uncertain and dependent upon the continued financial support of its shareholders and securing additional financing.

Market risk**(a) Interest rate risk**

The Company has cash balances and no interest-bearing debt, other than the loans described in Note 10. The Company's current policy is to invest excess cash in guaranteed investment certificates or interest bearing accounts of select major Canadian chartered banks. The Company regularly monitors compliance to its cash management policy.

Queensland Gold Hills Corp.**(Formerly Minfocus Exploration Corp.)****Notes to Condensed Interim Consolidated Financial Statements****For the nine months ended November 30, 2021****Unaudited – prepared by management****(Expressed in Canadian Dollars)**

5. Financial instruments and financial risk factors (Continued)**Market risk (Continued)****(b) Foreign currency risk**

The Company's functional and reporting currency is the Canadian dollar and a significant portion of the Company's expenditures are transacted in Canadian dollars. As a result, the Company's exposure to the foreign currency risk is minimal at this time but may increase as the Company develops its US based property.

(c) Commodity price risk

The Company is exposed to price risk with respect to base and precious metal prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to price movements and volatilities. The Company closely monitors prices to determine the appropriate course of action to be taken by the Company.

(d) Credit risk

Credit risk is the risk of an unexpected loss if a third party to a financial instrument fails to meet its contractual obligations. Credit risk for the Company is primarily associated with amounts receivable, which is comprised primarily of GST/HST receivable due from the Government of Canada. The Company has no significant concentration of credit risk arising from its operations. Management believes that the credit risk concentration with respect to amounts receivable is low.

6. Interest in exploration properties and exploration and evaluation expenditures (Continued)

Coral Zinc Project, British Columbia

In January 2015, the Company entered into an agreement pursuant to which it had an option to earn up to an initial 60% interest in the Coral Zinc Project, a zinc project situated in northern British Columbia. The optioned claims were subject to work and payment commitments. The Company earned a 20% interest, but during the year ended February 28, 2019, the Company determined that it was not able to meet its commitment to earn the remaining 40% interest in the claims and terminated the option agreement.

In September 2018, the Company acquired an additional 36% beneficial ownership interest in the Coral Zinc Project by issuing 7,180,000 shares and 7,180,000 share purchase warrants, exercisable at \$0.07 for 2 years with a fair value of \$287,200. As a result, the Company now holds a 56% interest.

The Company has pledged a \$10,000 GIC as security under a safekeeping agreement with the Ministry of Finance, British Columbia relating to the application for permits on the Coral Zinc Project. This amount is included in cash on the statement of financial position.

Peregrine Zinc Project, British Columbia

The Peregrine Zinc Project, located in southeastern British Columbia, comprises optioned claims supplemented by claims staked by the Company. In January 2017, the Company entered into an option earn-in agreement on the Peregrine Zinc Project, to earn a 100% interest over a period of two years by making optional staged payments totaling \$10,000 cash (paid) and issuing 142,857 shares (14,286 issued during the year ended February 28, 2017, 78,571 issued during the year ended February 28, 2018, and 50,000 issued during the year ended February 28, 2019) plus the grant of a 2% net smelter returns royalty ("NSR"). The Company has the option to repurchase up to 1% of the NSR for \$1,000,000 after commercial production. The Peregrine claims lapsed on December 31, 2021.

Round Pond Zinc Project, Newfoundland and Labrador

In March 2018, the Company entered into an agreement to acquire a 100% interest in the Round Pond Zinc Project, comprising 30 claims (750 hectares), located west of Hare Bay, on the Great Northern Peninsula of northwest Newfoundland and Labrador, for total consideration of 750,000 shares (321,432 shares issued during the year ended February 28, 2019 with a fair value of \$24,107 and 428,574 shares issued during the year ended February 28, 2021 with a fair value of \$12,857) of the Company. A 2.0% NSR royalty was granted of which \$1.5 million can be paid to reduce the royalty to a 0.75% NSR interest. The Company staked an additional 33 contiguous claims to the Round Pond Zinc Project, extending the property to its present 1,575 ha size. The Round Pond claims remain in good standing until January 17, 2023.

Nevada Rose Precious Metals Property, Nevada USA

On February 28, 2020, the Company entered into an agreement with GeoCorp to acquire 22 lode mineral claims in SW Eureka County Nevada, known as the Nevada Rose Precious Metals Property ("Nevada Rose Property"). In accordance with the agreement, the Company issued 200,000 shares to GeoCorp upon approval by the TSXV (issued during the year ended February 28, 2021, with a fair value of \$10,000 CAD), paid \$10,000 USD upon closing of a financing of at least \$100,000 within 3 months of TSXV approval (paid with a value of \$13,535 CAD during the year ended February 28, 2021), and committed to a first year work program of \$50,000 USD. The anniversary date of the future payments was set as July 3, 2020. The subsequent commitments are as follows:

6. Interest in exploration properties and exploration and evaluation expenditures (Continued)

Nevada Rose Precious Metals Property, Nevada USA (Continued)

1st anniversary - \$20,000 USD cash payment and \$200,000 USD work commitment

2nd anniversary - \$30,000 USD cash payment and \$200,000 USD work commitment

3rd anniversary until the 10th anniversary - \$50,000 USD cash payment and \$500,000 USD work commitment per year. If not in production on the 10th anniversary, \$200,000 USD cash payment and \$2.0 million USD work commitment.

Upon completion of all payments and work commitments up to and including the 10th anniversary, the Company will have earned 100% interest in all property rights and title to the Nevada Rose Property. Upon production, all further payments and work commitments by the Company shall cease and a 3% NSR shall be granted to GeoCorp, with no buydown but a purchase of part or whole of the NSR is negotiable. On July 21, 2020, the Company received TSX Venture Exchange approval of the acquisition.

Angelo Belli Precious Metals Property, Nevada USA

In May 2021 Minfocus recorded 16 lode claims, oriented north-south, and with their centre located approximately 7 km west from Nevada Rose, on a new property which has been named Angelo Belli. The claims cover old workings surrounding the Angelo Belli Mine, a historic property about which little information is available, but which produced small amounts of silver prior to 1900. To date Minfocus has not conducted any exploration on the property. Minfocus claims surround two lode claims which cover the workings of the Silver King Mine dating from the same period which were previously staked by others.

7. Share capital

Common Shares

On August 17, 2021, the Company consolidated of its common shares on a ratio of five pre-consolidation shares to one post-consolidation share. All share figures in these financial statements are shown as post-consolidated shares.

(a) *Authorized* - Unlimited number of common shares without par value.

(b) *Issued* - As at November 30, 2021, the Company had 5,282,146 (February 28, 2021 – 4,982,146) shares issued and outstanding.

Issued during the nine months ended November 30, 2021:

On September 24, 2021, 300,000 share purchase warrants priced at \$0.25 were exercised for gross proceeds of \$75,000.

Issued during the year ended February 28, 2021:

On May 28, 2020, the Company issued 85,715 common shares with a fair value of \$12,857 in connection with the Round Pond Property Agreement.

On July 3, 2020, the Company completed a private placement issuing 1,180,000 units (a "Unit") at a price of \$0.15 per unit for gross proceeds of \$177,000. Each Unit consists of one common share of the Company (a "Share") and one share purchase warrant (a "Warrant"), with each warrant entitling the holder to acquire one common share of the Company at a price of \$0.25 until expiry on July 3, 2022. All securities issued are subject to a hold period expiring on November 4, 2020.

On August 4, 2020, the Company issued 40,000 common shares with a fair value of \$10,000 in connection with the Nevada Rose Property Agreement.

7. Share capital (Continued)

Stock options (Continued)

On September 9, 2020, a total of 14,286 stock options granted to a former consultant were cancelled.

On September 9, 2020, the Company granted 260,858 stock options to directors and consultants exercisable at a price of \$0.35 per share for a term of 5 years from the date of issuance, expiring in September 9, 2025. A fair value of \$76,432 was determined using the Black-Scholes valuation model. The following weighted average assumptions were used: share price - \$0.06; dividend yield - 0%; expected volatility - 156.68%; risk free interest rate - 0.37%; and expected life - 5 years. The options vested immediately upon grant.

The following table summarizes the stock options outstanding and exercisable at November 30, 2021:

Number of Options	Exercise Price	Expiry Date	Number of Exercisable Options	Weighted Average Remaining Life (years)
20,000	\$0.40*	December 19, 2021	20,000	0.05
94,285	\$0.40*	February 7, 2023	94,285	1.19
17,143	\$0.40*	February 14, 2023	17,143	1.21
8,571	\$0.40*	February 19, 2023	8,571	1.22
8,571	\$0.40*	March 27, 2023	8,571	1.32
260,858	\$0.35	September 10, 2025	260,858	3.78
409,428			409,428	2.79

* Indicates an amended price – see below

In September 2020, the Company re-priced 40,000 stock options previously granted to consultants to \$0.40. At the Company's Annual and Special Meeting held in October 2020, the shareholders approved the re-pricing of 108,571 stock options previously granted to insiders of the Company to \$0.40. The Company recorded \$10,000 of share-based compensation for these repriced options.

8. Basic and diluted net loss per share

The calculation of basic and diluted loss per share for the nine months ended November 30, 2021, was based on the loss attributable to common shareholders of \$191,456 (November 30, 2020 - \$139,356) and the weighted average number of common shares outstanding of 5,037,214 (November 30, 2020 - 4,217,987). Outstanding warrants and stock options have been excluded from the calculation of diluted income per share for the periods presented as their effect would be anti-dilutive.

9. Related party balances and transactions

During the nine months ended November 30, 2021 and 2020, the Company incurred the following transactions with officers or directors of the Company:

For the period ended	November 30, 2021	November 30, 2020
Key management compensation* - cash	\$ 66,500	\$ 36,500
Compensation – share-based compensation	\$ -	\$ 43,616

Queensland Gold Hills Corp.

(Formerly Minfocus Exploration Corp.)

9. Related party balances and transactions (Continued)

* Key management includes those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including the Company's executive officers and certain members of its Board of Directors.

Officers and directors of the Company and companies controlled by such individuals were owed \$246,374 as at November 30, 2021 (February 28, 2021 – \$192,751) for services rendered and for expenses incurred in the ordinary course of business. The amounts are unsecured, non-interest bearing with no fixed terms of repayment.

10. Loans payable

During the year ended February 29, 2020, the Company entered into a loan agreement with an individual for the principal sum of \$10,000. Interest will be charged on the loan based on an agreed upon bank rate. The original term of the loan was six months, and subsequently the term of the loan was extended to December 31, 2021. Interest expense of \$1,248 accrued to November 30, 2021. Subsequent to November 30, 2021, the loan was paid in full.

11. Subsequent events

Property Transaction

On December 1, 2021, the Company completed a definitive Share Sale Agreement (the "Agreement") with Mining Projects Accelerator Pty Ltd. ACN 629 011 196 ("MPX"), a private Australian company, pursuant to which the Company acquired MPX's ownership of 80% of the outstanding common shares (each, a "Big Hill Share") of Big Hill Gold Mining Company Pty Ltd. ACN 081 474 179 ("Big Hill") on the terms and conditions of the Agreement (the "Transaction"). Big Hill holds a 100% interest in an exploration permit and two mining licenses comprising the Big Hill Gold Property located in Queensland, Australia (the "Big Hill Gold Property").

Pursuant to the terms of the Agreement, the Company acquired all of the shares that MPX owns of Big Hill, which is equal to 80% of the outstanding Big Hill Shares (the "Sale Shares") and assumed all of the rights and obligations of MPX as a shareholder of Big Hill. In consideration for the purchase of the Sale Shares, the Company issued 17,500,000 common shares of the Company (the "Payment Shares") to MPX and pro rata to its shareholders at a deemed price of \$0.125 per Payment Share. The Payment Shares are subject to a statutory hold period for four months and one day from the date of issuance. In addition, the MPX shareholders agreed that the Payment Shares be subject to a contractual escrow and released from escrow as follows: (i) 40% of the Payment Shares shall be released from escrow four months and one day following the date of issuance; (ii) 20% of the Payment Shares shall be released from escrow 180 days after issuance; (iii) 20% of the Payment Shares shall be released from escrow 270 days after issuance; and (iv) the remaining 20% of the Payment Shares shall be released from escrow one year from the date of issuance.

On December 17, 2021, the Company acquired an additional 15% of the outstanding Big Hill Shares and increased its shareholdings to 95% of the total outstanding Big Hill Shares by paying AU\$300,000 to the minority shareholder of Big Hill. The remaining 5% of the shares of Big Hill may be acquired from the minority shareholder for AU\$700,000.

Private Placement

On December 1, 2021, the Company completed a non-brokered private placement of 17,160,000 units (each, a "Unit") at a price of \$0.125 per Unit for gross proceeds of \$2,145,000. Each Unit consisted of one common share of the Company (each, a "Share") and one half of one common share purchase warrant (each whole warrant, a "Warrant"). Each Warrant is exercisable into one additional Share at a price of \$0.25 until December 1, 2023 (the "Offering"). The Company intends to use the proceeds of the financing to acquire an additional 15% of the Big Hill Shares from the minority shareholder, for exploration and development of the Big Hill Gold Property and for general working capital purposes. All securities to be issued under the Offering are subject to a statutory hold period expiring four months and one day from the date of issuance.

11. Subsequent events (Continued)

Stock options granted

On December 7, 2021, the Company granted 3,500,000 stock options to directors, officers, and consultants of the Company to purchase 3,500,000 common shares in the capital of the Company at an exercise price of \$0.20 per share until December 7, 2026.

Market Maker Programs

On December 9, 2021, the Company announced the following marketing and market-making initiatives:

Venture Liquidity Providers

The Company engaged Venture Liquidity Providers Inc. (“VLP”) to provide market-making services. The market making service will be undertaken by VLP through a registered broker, W.D.Latimer Co. Ltd. in compliance with TSX Venture Exchange (“TSXV”) policies. VLP will buy and sell shares of the Company on the TSXV for the purpose of maintaining an orderly trading market or providing liquidity in the Company’s shares. The term of the agreement is one year and may be terminated by either party immediately upon receiving written notice. In consideration, the Company will pay VLP \$60,000 plus GST. Following the initial term, the agreement will automatically renew for successive additional 12-month terms. The Company and VLP are unrelated and unaffiliated entities.

Stockhouse Publishing

The Company engaged Stockhouse Publishing Ltd. to assist the Company in enhancing its on-line profile with the global investment community. Pursuant to the terms of the Stockhouse agreement, Stockhouse will be paid an aggregate cash amount of \$150,000 plus GST for its services over a 12-month period. Neither Stockhouse nor its affiliates currently own any securities of the Company.

Market One Media Group

The Company engaged Market One Media Group to provide marketing and social media expertise to its marketing initiatives for the next 9 months. Pursuant to the terms of the MarketOne Media agreement, Market One will be paid \$130,000 in cash plus GST. The scope of the marketing initiatives includes coverage and commercial spots on BNN, Canada’s only TV station devoted to business and finance news as online articles on business investing networks such as the National Post. Market One is arm’s length to the company and does not currently own any securities of the company.

GOLDINVEST Consulting GmbH

The Company engaged GOLDINVEST Consulting GmbH to enhance its current marketing efforts by providing access to their extensive investor network in Europe. GOLDINVEST will provide commentary on news releases in German to its financial community. The term of the agreement is 6 months and GOLDINVEST will be paid 9,000 EURO. The Company and GOLDINVEST are unrelated and unaffiliated entities.

Warrants exercised

On December 10, 2021, 106,000 share purchase warrants priced at \$0.25 were exercised for gross proceeds of \$26,500.

Stock options expired

On December 19, 2021, 20,000 stock options priced at \$0.40 expired unexercised.
